Re: MB Docket Number 05-192

Dear Chairman Martin and Commissioners Abernathy, Copps, and Adelstein:

I write on behalf of The Latin Chamber of Commerce in Broward County in support of the pending joint acquisition of Adelphia cable systems by Comcast Corporation and Time Warner, Inc.

The Latin Chamber of Commerce of Broward, (LCCB), represents a growing association of 500 Hispanic and other businesses throughout Broward County and the Southeast Florida area. Founded in 1987, the LCCB is here to serve and expand its membership to "do more business." In the near future, the Hispanic community in Broward County is expected to become the majority community. The LCCB is the organization to partner with to reach this booming community.

The Latin Chamber of Commerce supports this transaction because we are convinced that it is in the public's interest and we have full confidence in the stewardship of Comcast based on its commitment to the communities they currently serve.

First, the transaction will help the economy by saving the jobs of a now bankrupt Adelphia. And both companies' commitment to invest a combined \$800 million on infrastructure upgrades will stimulate growth and open opportunities to minority owned contractors to participate in this large venture. For example, in South Florida alone, Comcast invested \$143.5 million in 2003 and 2004 to upgrade the systems it acquired from AT&T Broadband. Comcast's primary contractor for this massive upgrade was a Hispanic-owned enterprise headquartered in South Florida.

Secondly, Comcast has a strong record of diversity both in programming and hiring. Comcast has invested billions to ensure that all communities they serve receive the highest quality service and they have fought attempts by other companies to bypass minority communities when building out their services. Both companies feel strongly that everyone should have access to high quality cable service that is why they provide free cable service through the Cable in the Classroom program to many schools, libraries, and community centers in predominantly low-income areas.

For example, in its South Florida Region, Comcast has shown its commitment to meet the programming needs and interests of the Spanish speaking population. Shortly after it acquired AT&T Broadband in November 2002, Comcast set out to launch, promote and service a robust offering of Spanish-speaking programming at multiple levels of service. Pasted below is an illustration of Comcast's Spanish speaking

programming in South Florida market. As you can see, Comcast's commitment to meet the diverse programming interests of our Spanish-speaking programming is compelling.

Third, communities will benefit from Comcast's commitment to the diverse multicultural markets it serves. Since arriving in South Florida in November 2002, Comcast has made significant investments within the South Florida communities.

Lastly, consumers will benefit from improved and reliable service from the two leading companies in the cable industry. Adelphia's five million customers will realize improvements in the delivery of service, quality of service, and will have more access to advanced services such as video on demand, high speed broadband, and VoIP.

The Latin Chamber of Commerce has full faith that Comcast Corporation's and Time Warner's acquisition of Adelphia will benefit consumers as well as their communities. We strongly support the acquisition of Adelphia by Time Warner and Comcast and urge the FCC to rule in its favor.

Sincerely,

Jose "Pepe" Lopez
President
